Summary

Proficient in multiple JavaScript frameworks, I've honed my skills in crafting robust, scalable, and efficient solutions. My toolkit includes expertise in frameworks like React js, Next js and Node js allowing me to choose the best tools for the job and deliver quality code. I thrive in solving complex challenges and optimizing performance. My analytical mindset and attention to detail enable me to identify and address issues efficiently, ensuring the delivery of reliable and streamlined applications.

Experience

AppliconSoft, – Senior JavaScript developer and Team Lead, Jully 2022 – present
