English, Urdu, Punjabi

Portfolio

Path Finder Resume Maker, (https://app.thepathfinderhub.com/)

I designed the PathfinderHub app's UI using React.js and Bootstrap, incorporating animations, a slick slider, dropdowns, accordions, a calendar, modals, and responsive tables. Features include a resume page, dynamic elements, and a complete, responsive, and functional project design, ensuring a seamless user experience across all devices.

Shortlistme, (https://shortlistme.com/)

I designed the ShortlistMe app's UI using React.js and Bootstrap, integrating animations, a slick slider, dropdowns, accordions, a calendar, modals, and responsive tables. Key features include a resume page, interactive elements, and a fully responsive and functional project design, providing an intuitive and seamless user experience across all devices.

Digital Mindson, (https://digitalmindson.com/)

I completed the Digital Mind Son project with a fully responsive design using Bootstrap 5's latest library. Features include smooth animations for cards, side menus, dropdowns, slick sliders, headlines, and hover effects. Designed maps, contact forms with functional country code dropdowns, blog pages, service pages with videos, portfolios, and team pages, ensuring seamless functionality and responsiveness.

ROI, (https://roilevelup.com/)

I contributed to the ROI Level Up project by designing the animated top menu and cards with animations, debugging and resolving various frontend issues, implementing a slick slider, creating a country code dropdown and calendar, and working on all pages. Ensured responsive design with effective teamwork throughout the project.
